

Scientific Professional Curriculum Vitae

LtCol Dr. habil. Ing. Pavel Foltin, Ph.D.

PERSONAL DATA

Name and surname:	LtCol Ing. Pavel Foltin, Ph.D.
Employer:	Faculty of Economics and Management, University of Defence, Ministry of Defence of the Czech Republic
Workplace:	Brno
Working placement:	<ul style="list-style-type: none">- Vice-Dean for Research, Faculty of Economics and Management, University of Defence- Senior Scientist – Deputy Head of the Department of Logistics, Faculty of Economics and Management, University of Defence

EDUCATION AND COURSES

Dr. habil.	<ul style="list-style-type: none">- National University of Public Service, Budapest, Hungary- study program Theory of Defence Administration in the field of Military Sciences of Social Studies- finished 2013
Ph.D.	<ul style="list-style-type: none">- Faculty of Economics and Management, Military College of Ground Forces in Vyškov, Czech Republic- study branch National Defence Economics- finished 2004
Ing.	<ul style="list-style-type: none">- Faculty of National Defence Economics, Military College of Ground Forces in Vyškov, Czech Republic- study branch National Defence Economics- study specialization Logistics of the Army of Czech Republic- finished 2000
Acquisition Policy Course	<ul style="list-style-type: none">- Bundesakademie für Wehrverwaltung und Wehrtechnik. Mannheim, Germany, 2005

PRACTISES

<i>employer</i>	<i>post</i>	<i>since</i>	<i>till</i>
University of Defence in Brno	Vice-Dean for Research	2011	still
University of Defence in Brno	Vice-Dean of Public Relations and Development	2010	2011
University of Defence in Brno	Vice-Dean of Curriculum	2006	2010
University of Defence in Brno	senior scientist – deputy head of the Department of Logistics	2008	still
University of Defence in Brno	assistant professor	2006	2008
University of Defence in Brno	assistant	2005	2006
University of Defence in Brno	scientific worker	2004	2005
Military College of Ground Forces in Vyškov	scientific worker	2002	2004

RESEARCH AREAS AND CONSULTING FOCUS

- My research deals with supply chain security and sustainability of logistics support of multinational operations. I focus my research on the asymmetric threats and disruptions to the supply chains, especially the threat of international terrorism.
- Due to my professional background from the different positions of Vice-Dean of the Faculty of Economics and Management University of Defence, my professional work is also deal with the issues of education for national security systems.

Scientific/Working Boards Membership

<i>institution</i>	<i>post</i>	<i>year</i>
Przegląd Naukowo - Metodyczny "Edukacja dla Bezpieczeństwa – Scientific Journal published at the Higher School of Safety in Poznan (Wyższa Szkoła Bezpieczeństwa z siedzibą w Poznaniu)	member of editorial board	2012-still
Scientific Board of the University of Defence in Brno	member	2012
Journal <i>Economics and Management</i> – Scientific Journal published at the Faculty of Economics and Management University of Defence	editor in chief	2011-still
Scientific Board of the Faculty of Economics and Management University of Defence in Brno	member	2007-still
Permanent working group on Military and Security Branches of the Accreditation Commission of the Ministry of Education, Youth and Sports of the Czech Republic	member	2006-still
Counsel of Resources and Processes in Security and Defence, Internal Grant Agency of the Institute of Strategic Studies, University of Defence in Brno	member	2004-2006
Branch Board of the Integral Grant Agency of the Institute of Strategic Studies Military Academy in Brno	member	2002-2004

SCIENTIFIC/RESEARCH PROJECTS

No.	result
1.	Research leader HORÁK Roman. <i>Ekonomická laboratoř [Economic Laboratory]</i> . Research of Institutional Support Project, Ministry of Defence, Czech Republic. Brno: FEM UoD, 2011-2015.
2.	Research leader BARTA Jiří. <i>Interoperabilita pracovišť, podporující výuku bezpečnostního managementu počítači v síti [Interoperability of Workplaces Supporting the Security Management Education in Computer Network]</i> . Students Specific Research Project, under the support of Ministry of Education, Youth and Sports. Brno: FEM UoD, 2012.
3.	FOLTIN Pavel, HAJNA Petr. <i>Rozpracování technologií UHCA k zabezpečení strategických přesunů jednotek v operacích NATO - Dílčí úkol výzkumného záměru FEM [Development of Ultra Heavy Cargo Airlift (UHCA) Technology for strategic transportation of troops in NATO operations]</i> . PROJECTS UNDER THE EUROPEAN SOCIAL FUNDS

No.	result	note
1.	<p>National Individual Project of European Social Funds <i>Qualification Framework for Tertiary Education</i>, under the Ministry of Education, Youth and Sports of the Czech Republic.</p> <p>The project aims to create a national qualification framework for tertiary education, which will cover the outputs of tertiary education at universities and higher vocational schools. The qualification framework itself is to formulate national descriptors defining the expected outputs of the different levels of tertiary education (DiS, Bc, Mgr., Ph.D.) in the most general form and, more specifically, descriptors oriented to particular educational fields. These are to be formed by groups of each other related disciplines. During the course of the project methodology will be developed and verified. Institutions will proceed in subsequent implementation of the framework up to the level of study / training programs according to this methodology. The project will also set clear links between the qualification framework and the system of quality assurance and evaluation. These links are one of the key conditions for the establishment and proper functioning of the system. The added value of the project in general will make the tertiary education sector in the Czech Republic more transparent, which will benefit all relevant actors (individual institutions, students, employers, the Ministry, the Accreditation Committee).</p> <p>[http://www.msmt.cz/european-union/ipn-in-the-field-of-tertiary-education-research-and-development]</p>	<ul style="list-style-type: none"> - member of project working group 86 <i>Security Services</i>, from 10/2009 till 12/2010; - the project aims to create national qualification framework for tertiary education in the Czech Republic, which will cover outputs of education and also will be compatible with the competence framework in the European higher-education area - the projects implementing methodology of United Nations ISCED 97 in Czech Republic
2.	<p>Project of European Social Funds <i>Education for National Security System</i>, under the Faculty of Economics and Management University of Defence in Brno. [CZ.1.07/2.2.00/15.0070]</p> <p>Project's primary goal is to push education and expert training in Czech national security system further to a higher quality. The secondary goal is to establish an innovated one and two new study ways within the accredited field of National Defence Economy structured as follows: Population protection, Security services and Information security management. The project shall bring the content and utilisation of contemporary forms of trainer and simulation aided education as security cannot be efficiently taught without that technology. Project outputs shall include a number of new study courses within the Economics and Management degree programmes.</p> <p>[http://www.unob.cz/en/research_development/Pages/Education-for-National-Security-System.aspx]</p>	<ul style="list-style-type: none"> - project manager - phase of application 8/2009 till 11/2010, phase of realization 11/2010 till 9/2013
